The Cochlear™ professionals website has been launched recently and is a specialised resource centre for hearing health and other professionals who work with Cochlear's innovative portfolio of implantable solutions.

Whether you would like to know the latest news and events or need to access the latest professional and consumer product information – you will find it here.

Having access to the professionals website supports you with:

- Patient management support
- Troubleshooting assistance
- Current professional opinion and knowledge
- Scientific and research information.

Additionally, professionals who have received a log in will automatically find "Sound Connection" in their inbox: an e-newsletter which is issued quarterly and informs about updates and news on clinical and surgical topics.

We invite you to visit the Cochlear professionals website and enjoy finding accurate, up-to-date, pertinent and reliable information from a trusted source.

Yours faithfully

Kris Petré
